of adult education
together!*

WELCOME TO THE AI-ADU PROJECT!

We are thrilled to launch the first newsletter for AI-ADU: Building Paths to the Future, an Erasmus+ initiative dedicated to empowering adult education providers and professionals to harness Artificial Intelligence (AI) for digital transformation, innovation, and inclusion. This project is set to reshape adult learning and education (ALE) by equipping educators, trainers, and administrative staff with the tools and skills needed to thrive in the digital era.

4

EXPERIENCED PARTNERS

The AI-ADU: Building Paths to the Future project unites four partners. VšĮ Socialinių inovacijų centras (SIC) from Lithuania, DOREA Educational Institute from Cyprus, KINITRO from Greece and Arezzo Innovazione Fondazione di Partecipazione from Italy.

Key findings

AI is no longer a distant concept - it's already transforming how we live, work, and learn. Yet, many adult education providers face challenges in adopting AI effectively.

WHAT IS THIS PROJECT ABOUT?

Through the co-creation of a modular AI Competency Framework, a blended learning programme and practical resources, AI-ADU promotes responsible, ethical, and strategic use of AI tools in adult education. The project responds to the urgent need for upskilling in the digital era and supports adult learning organisations in becoming more future-ready, equitable and innovative.

HOW TO GET INVOLVED?

AI-ADU is a collaborative journey in adult education and we want you to be part of it! Here's how you can get involved:

- Connect with digital transformation experts and share best practices.
- Attend our upcoming webinars and multiplier events to co-create solutions.
- Contact us to contribute ideas or join future focus groups.
